

Calorie Labeling Support for Spire Fountain Dispensers

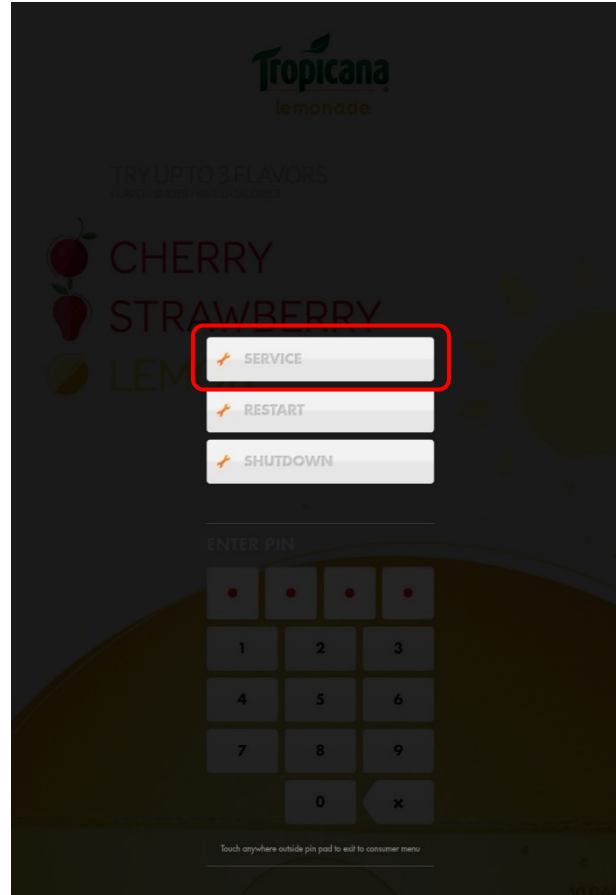

- PepsiCo has released a software update that gives customers the option to display calorie information for available beverages by cup name & size on Spire screens.
- Customer will have the ability to enable or disable this functionality.
 - Customers that choose to **enable** this functionality should use the programming instructions on the following pages
 - Customers that choose **not to enable** this functionality can create a calorie placard using www.PepsiCoBeverageFacts.com/fountainreports. Placard must be placed *adjacent* to the Spire unit, **not** adhered to the Spire equipment.
- If customers experience any issues with their digital fountain equipment, please contact PepsiCo Equipment Services

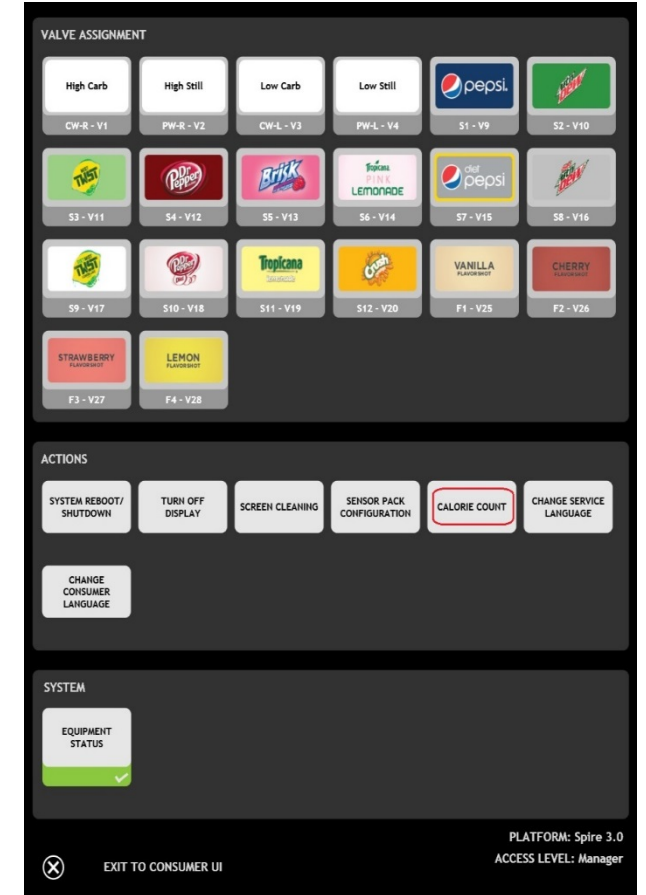

Enabling Calorie Counts to Display on Spire Equipment

1) Do a "P swipe" and enter your PIN to access the Service User Interface

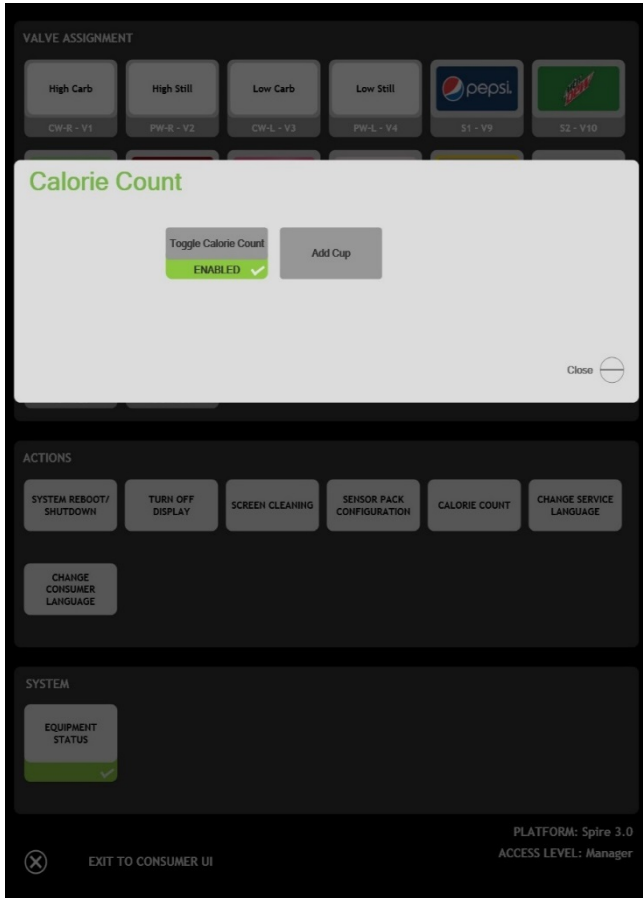

2) Select "Service"

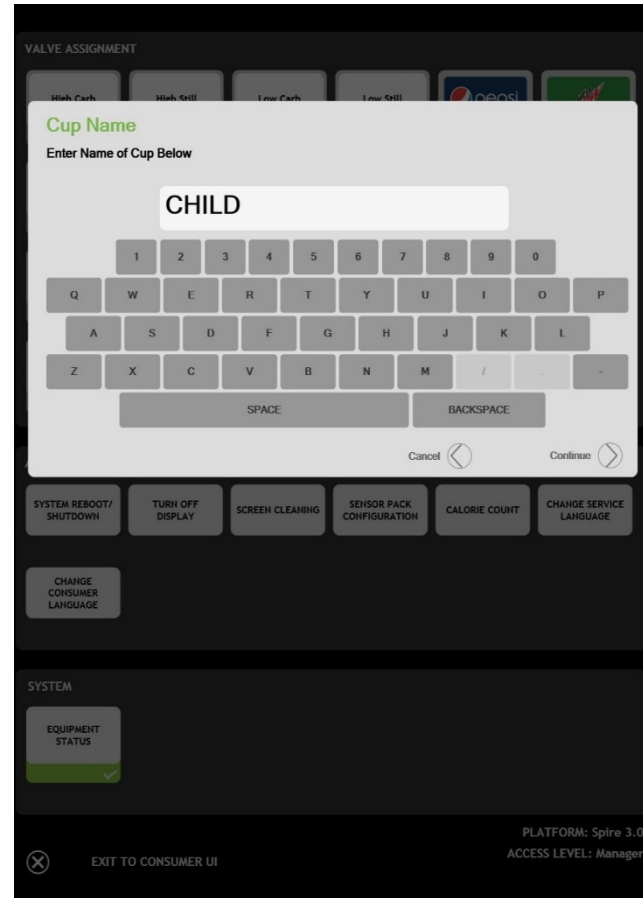

3) In the Actions section, select "Calorie Count"
(By default, the Calorie Count function is disabled and no cups are set up)

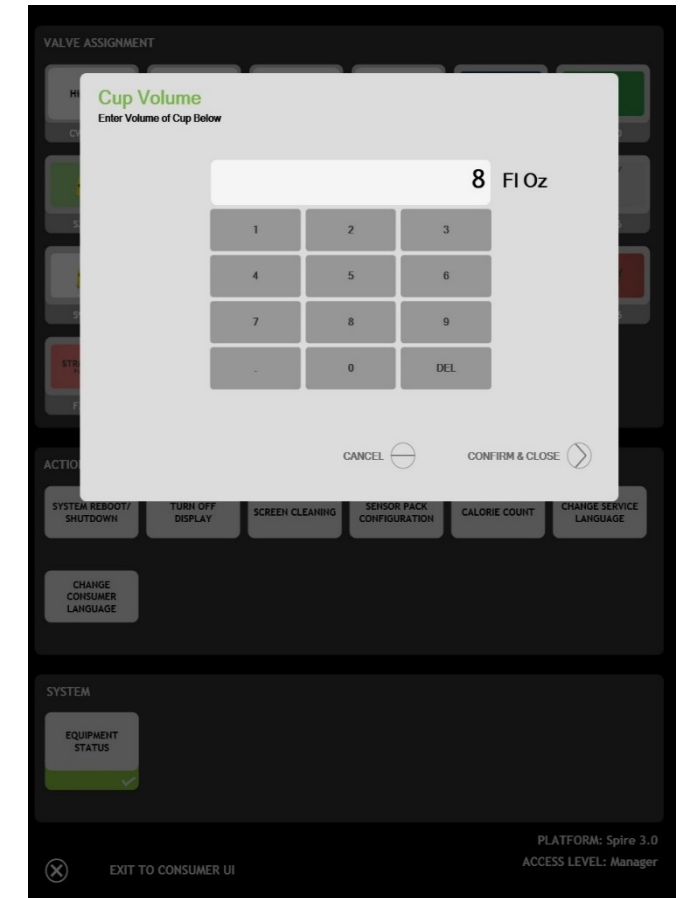

Enabling Calorie Counts to Display on Spire Equipment

4) Click on the **“Toggle Calorie Count”** box to turn the function on

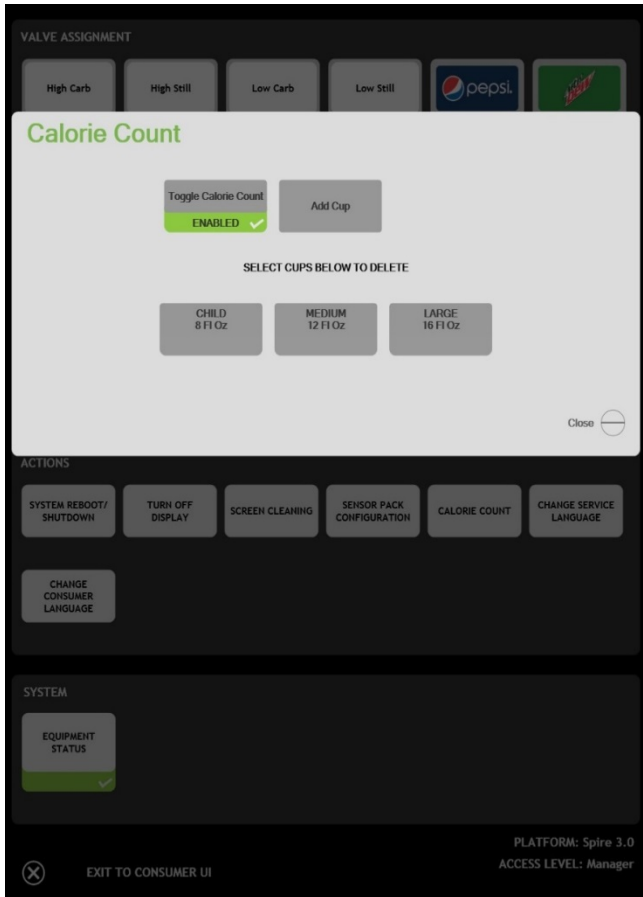

5) Click **“Add Cup”** and type in a cup name and then press **“Continue”**. If you have only 1 cup size without a name, enter 3 blank spaces.

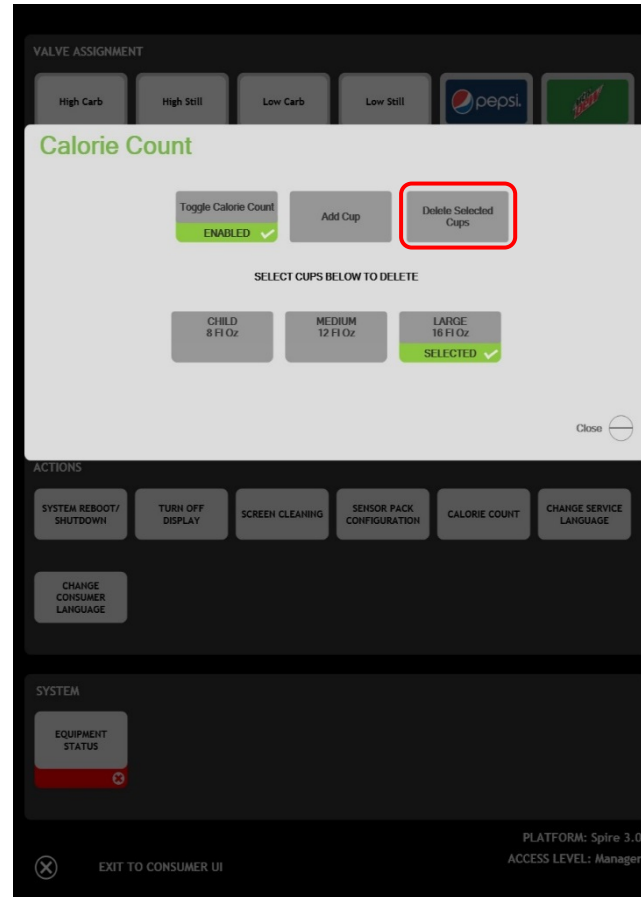

6) Enter the volume in fl. oz. for that cup size, and then press **“Confirm & Close”**

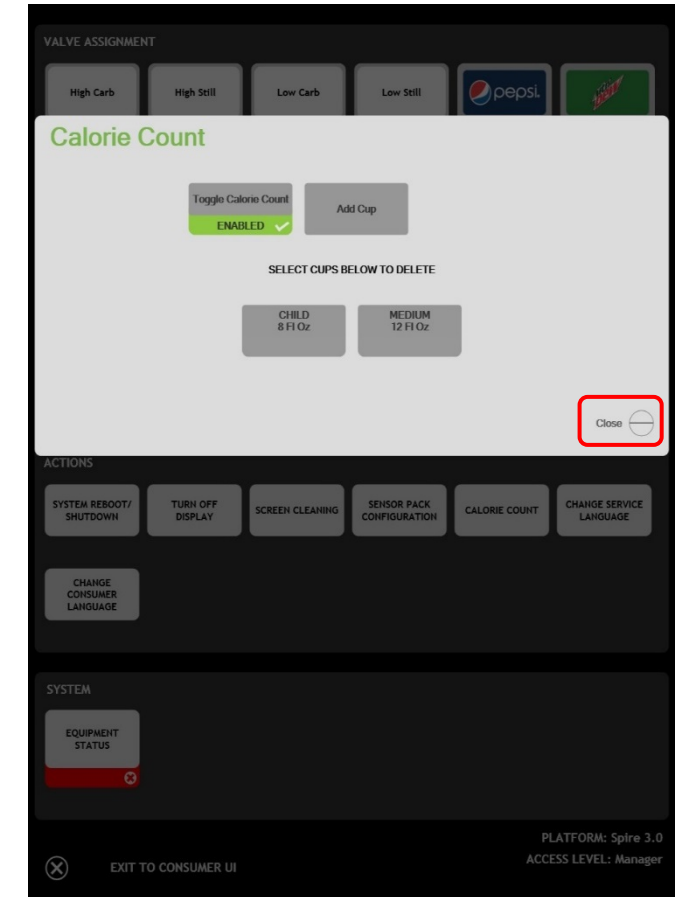

Enabling Calorie Counts to Display on Spire Equipment

7) Repeat for each cup (up to 4 sizes). It will automatically sort by size.

8) To delete a selection, press on a cup to select it and then press "**Delete Selected Cup**". To modify a selection, delete the cup and then re-add it.

9) When finished, press "**Close**" and exit to the Consumer UI

Enabling Calorie Counts to Display on Spire Equipment

- The Calorie Count info will now be displayed on the brand menu screens.
- Follow the instructions to modify cup info or turn the function off.
- If the Calorie Count function does not appear in the Service User Interface, please contact PepsiCo Equipment Services.
- To create a calorie placard, instead of enabling the on-screen display, go to www.pepsicobeveragefacts.com/fountainreports
